Important Information

Wells Fargo Funds with names containing the designation of "G", "F" or "N" are Wells Fargo Collective Investment Funds available to qualified investors only. Expense Ratios reported for the Wells Fargo Collective Investment Funds represent the investment management fee for each fund and exclude audit and other administrative expenses. Please see each collective fund's Disclosure document for additional information.

Fund ranking percentages represent each fund's percentile rank relative to its assigned asset class category within the peer group specified. Certain funds (i.e. money market mutual funds, Wells Fargo Collective Investment Funds and asset allocation funds) will not display percentile rankings.

Returns for periods greater than 1-year are annualized.

Performance shown for certain share classes of funds may reflect the adjusted historical returns published by Morningstar, which are calculated using the appended adjusted return history of the oldest surviving share class of the fund. Predecessor fund information can be found in the Fund's prospectus, statement of additional information, or annual report.
