MONEY PURCHASE PLANS

IMPORTANT NOTICE CONCERNING YOUR RIGHTS
BROOMFIELD'S 401 (a) MONEY PURCHASE PLANS

Date of Notice: May 1, 2014

This notice is to inform you that the Money Purchase Plan for General Employees and the Money Purchase Plan for Peace Officers (The Plans) will be changing record keepers from Wells Fargo IRT (The prior record keeper), to Great-West Financial®. As a result of this change, you will temporarily be unable to:

- Direct of diversify investments in your money purchase plan account with the prior record keeper;
- Direct or diversify loan repayments in your money purchase plan account; and
- Obtain a loan or any distribution from the Plans.

This period, during which you will be unable to exercise these rights otherwise available under the Plans, is called a blackout period. Whether or not you are planning retirement in the near future, we encourage you to consider how the blackout period may affect your retirement planning, as well as your overall retirement plan.

The blackout periods for the Plans are as follows:

- Beginning on June 6 2014 at 2:00 p.m. MT and ending on close of business July 14, 2014, for your ability to apply for loan;
- Beginning on June 6, 2014 at 2:00 p.m. MT and ending on close of business July 14, 2014, for your ability to obtain distribution or withdraw any individual account balances from the Plan; and
- Beginning on June 24, 2014 at 2:00 p.m. MT and ending on close of business July 14, 2014, for your ability to direct or diversify your money purchase plan account.

You can determine whether the blackout period has started or ended by calling 1.800.360.2684 (KeyTalk®). Access to the automated voice response unit may be limited or unavailable during periods of peak demand, market volatility, system upgrades/maintenance, or other reasons.

During the blackout period, you will be unable to direct or diversify the assets held in your money purchase plan account. For this reason, it is very important that you review and consider the appropriateness of your current investments in light of your inability to direct or diversify those investments during the blackout period at your prior record keeper. For your long-term retirement security, you should consider the importance of a well-balanced and diversified investment portfolio, taking into account all your assets, income and investments. You should be aware that there is a risk of holding substantial portions of your assets in one investment option. Please be aware that until the end of the blackout period, but no later than July 14, 2014, your account assets will be held in your current investment allocation.

If your money purchase plan account assets are held in Advice Track at Wells Fargo, after your assets are received from Wells Fargo, the Trustee(s) will invest all transferred assets in Federated Prime Obligations Instl (default investment) until a report is available from Wells Fargo. For this reason, your money purchase plan account assets will be invested in this default investment until the end of the blackout, but no later than July 14, 2014. On or before the blackout end date, your money purchase plan account assets will transfer from the default investment into the age appropriate JP Morgan Smart Retirement Portfolio effective on that business day.
