- Based on this information, your knowledge and perceptions, what are the strengths of Broomfield that we can build from? What are the opportunities that we have before us inside and outside of Broomfield?
- What other information do we need?
- What are the potential dangers that we have to consider? What are the threats within the region that could impact us?
- Without any intervention and we find us down the road in 20 years, what is our potential future in Broomfield?
