

The vision of the Broomfield Sustainability Task Force is to create a 'Zero Waste' community in which resident and Business flourish by reducing, reusing and recycling at all levels.

With the goal of changing attitudes and behavior in regards to automobile use, and providing ways and means for Broomfielders and visitors to our community to use alternative modes of travel, the transportation infrastructure will be improved.

The community of Broomfield will become a leader in protecting our natural resources which includes our native wildlife.

Broomfield will pursue the goal of making fresh organic food available to everyone while supporting our agriculture community in and outside of our borders.

The Sustainability Task Force is committed to improving air quality.

Involving the next generation of leaders is of utmost importance in our Green vision.

Financial Sustainability is an absolutely necessary and vital issue in the goals and visions of this task force.

Finally and equally important, Education and Communication are paramount to success.
