

Getting Started with Overdrive ebooks on the iPhone/iPad/iTouch

What You Need to Start:

- ⇒ iPad
- ⇒ WiFi connection
- ⇒ OverDrive Media Console app
- ⇒ Apple ID and password
- ⇒ Library card number
- ⇒ Adobe ID and password. Don't have one yet? No problem

Let's Get it Started!

1. Download Overdrive Media Console and open on your iPad.
2. See the "Get Books +" button in the upper right corner? Tap that. From this screen, tap "Add a Library." You can find your library by name, city, or postal code. Type Mamie to find our OverDrive site.
3. While browsing, you'll notice that eBooks are featured on the top of the page with audiobooks below that. Choose "browse" to browse by genre or eBook format. With an iPad, you can download EPUB eBook titles and read them in your OverDrive app.
4. When you find an item you'd like to download, click "Add to Cart" next to the item record. If you only see the option to "Request an Item," that means all our digital copies are currently checked out and you'll have to place a hold—just like a real book!
5. Once you've added all the eBooks you'd like to check out to your cart (up to 4 at once!), you're ready to download. Choose "Proceed to Checkout" and then sign in with your library card number.

Ready, Set, Download

1. After you click "Download," your iPad will download the title to your OverDrive Media console. You'll have to open OverDrive in order to access your eBooks.
2. And voila! Now you should have the eBook downloaded to your iPad in an instant.
3. The iPad will prompt you to enter an Adobe ID and password. Once you do this one time, it shouldn't ask for it again. If you don't have an Adobe ID and password yet, you can create one from this screen. It asks you a few questions and takes about a minute.
4. To return your eBook early, simply click on the arrow to the right of your title from the OverDrive Media Console page. Now you should see "Files" at the bottom of your screen. Tap this and then choose "Remove."

To access the FrontRange Downloadable Website from Safari, the direct website is <http://frontrange.lib.overdrive.com/>

For Kindle App:

- ⇒ Download the Kindle App
- ⇒ You will need an Amazon account.
- ⇒ To manage your digital items, click on "Digital Items" and "Manage your Kindle"
- ⇒ Book will be listed. To return items early, select Actions and Return book.
