Planning and Zoning Commission Minutes
February 25, 2019

Commissioner Franz moved for approval of Resolution No. PZ-2019-9 for a variance application to allow a setback reduction from 60 feet to 48 feet for Alternative Autoworx located at Car Wash Express Filing No. 1 Replat A, Lot 2 in the General Business Zoning District based on the following findings:

1. The design of the approved building failed to account for the reduced functional height of the building due to the roof support beams. Such a reduction in overall height limits the full use of the building for its intended purposes.
2. In order to fully utilize the building, the overall building height must be increased approximately 4' for an overall maximum height of 20'. The applicable required setback for B-2 zoning with adjacent residential is 3x the maximum building height or in this case 60'.
3. The requested variance reduces the setback from the required 60' to 48'. This allows the building to remain in its approved footprint.
4. The requested variance will not be detrimental to the neighborhood.
5. The requested variance will not impair the purpose of the zoning regulations.
6. The applicant provided support for the requested variance from 3 neighboring property owners.
7. There is no public opposition to the requested variance.

Commissioner Sanborn seconded the motion.

There was no further discussion following the motion.

The resolution passed unanimously by a vote of 4 to 0.
