Summary of Written Comments FOR Ballot Issue No. 3A:

St. Vrain Valley School District (SVVSD) is experiencing rapid enrollment growth. In fact, the hundreds of new students who enroll in the district each year could fill an entire elementary school. If we do nothing, one-half of SVVSD's schools will be operating beyond capacity, with some schools operating at 140% capacity within the next three to five years if no action is taken.

To address the need for additional instructional space – as well as other high priority facility needs – the district is placing a bond measure (3A) on the November ballot. Proceeds of 3A will fund many critical improvements, including:

¹ Excluded from debt are enterprise and annual appropriation obligations.
• Adding classrooms and science labs in 29 schools district-wide
• Replacing outdated heating and ventilation systems, electrical systems, roofing and plumbing
• Improving safety and security of school buildings with interior and exterior cameras and secure entrances (at schools not already equipped)
• Constructing three new schools in areas with rapid enrollment growth as well as a Longmont-based Innovation Center available to all SVVSD students

The estimated monthly tax impact of 3A is $1.82 per $100,000 of a home's actual value. This is a modest investment with significant benefits for our students, local schools and communities, including:

• Addressing rapid enrollment growth, providing students with the room to learn
• Extending the useful life of existing school buildings
• Reducing costly emergency repairs and improving energy efficiency
• Enhancing core programs and rigorous curriculum, including science, technology, engineering and math (STEM) offerings
• Strengthening property values
• Generating additional local economic development
• Saving taxpayer dollars

3A is about keeping a great thing going. In just the past five years, SVVSD has received 88 state and/or national awards, and district students have outperformed the state average on 94% of assessments. In fact, 78% of the district’s schools are accredited with CDE’s Distinction of Performance. Students are also earning Associate degrees (at no cost) through the P-TECH program. The district has worked hard to establish relationships with corporate sponsors.

SVVSD has a strong track record of completing bond projects on time and within budget, and continues to look for refinancing opportunities to save taxpayer dollars.

With borrowing costs at historic lows, and construction costs continuing to increase, now is the right time to address our highest priority facility needs. The longer we wait, the more it will cost.

As was the case with the successful 2008 bond measure, there will be strong oversight in place. All spending associated with the bond measure will be publically disclosed. Project updates will also be provided on the District’s website as well as through community outreach meetings.

Your YES vote on 3A will benefit every school in our district and the district’s 32,000 students. Your YES vote will allow SVVSD to continue to make significant strides in preparing students for college and the workforce.

Your YES vote on 3A will keep our schools strong, and in turn keep our communities moving forward, protect property values, and attract new businesses and well-paying jobs to our area.
