

## System Cleaners License Application

Employees of a person who already holds a System Cleaner License are not required to hold a separate license in their own name. Possession of a System Cleaner License does not permit the license-holder to perform use permit inspections for an On-site Wastewater Treatment System (OWTS). The holder of a valid System Cleaners License allows the cleaning, and inspection of OWTS tanks or other treatment unit(s); as well as the transportation of sewage to a disposal site.
