Small Spaces & Dead Voices (Middle Grade - ages 9-11)

Katherine Arden

After suffering a tragic loss, eleven-year-old Ollie only finds solace in books. As she begins to read the slender volume, Ollie discovers a chilling story about a girl named Beth, the two brothers who both loved her, and a peculiar deal made with "the smiling man," a sinister specter who grants your

most tightly held wish, but only for the ultimate price. Ollie is captivated by the tale until her school trip the next day to Smoke Hollow, a local farm with a haunting history all its own. There she stumbles upon the graves of the very people she's been reading about. On the way home, the school bus breaks down, sending their teacher back to the farm for help. As the trio head out into the woods to search for help --bordered by a field of scarecrows that seem to be watching them--the bus driver has just one final piece of advice for Ollie and her friends: "Avoid large places. Keep to small." *Dead Voices* is a terrifying follow-up to *Small Spaces* with thrills and chills galore and the captive foreboding of a classic ghost story.

Wilder Girls (Teen)

Rory Power

A feminist *Lord of the Flies* about three best friends living in quarantine at their island boarding school, and the lengths they go to uncover the truth of their confinement when one disappears. This fresh, new debut is a mind-bending novel unlike anything you've read before. It's been eighteen months since the Raxter School for Girls was put under quarantine. Since the Tox hit and pulled Hetty's life out from under her. It started slow. First the teachers died one by one. Then it began to infect the students, turning their bodies strange and foreign. Now, cut off from

the rest of the world and left to fend for themselves on their island home, the girls don't dare wander outside the school's fence, where the Tox has made the woods wild and dangerous. They wait for the cure they were promised as the Tox seeps into everything. But when Byatt goes missing, Hetty will do anything to find her, even if it means breaking quarantine and braving the horrors that lie beyond the fence. And when she does, Hetty learns that there's more to their story, to their life at Raxter, than she could have ever thought true.

This Was Our Pact

Ryan Andrews

It's the night of the annual Autumn Equinox Festival, when the town gathers to float paper lanterns down the river. Legend has it that after drifting out of sight, they'll soar off to the Milky Way and turn into brilliant stars. This year, Ben and his classmates are determined to find out where those lanterns really go, and they made a pact with two simple rules: No one turns for home. No one looks back. The plan is to follow the river on their bikes for as long as it takes to learn the truth, but it isn't long before the pact is broken by all except for Ben and (much to Ben's disappointment) Nathaniel, the one kid who just doesn't seem to fit in.

Together, Nathaniel and Ben will travel down a winding road full of magic, wonder, and unexpected friendship. **And a talking bear.

***These Witches Don't Burn* (teen)**

Isabel Sterling

Hannah's a witch, but not the kind you're thinking of. She's the real deal, an Elemental with the power to control fire, earth, water, and air. But even though she lives in Salem, Massachusetts, her magic is a secret she has to keep to herself. If she's ever caught using it in front of a Reg (read: non-witch), she could lose it. For good. So, Hannah spends most of her time avoiding her ex-girlfriend (and fellow Elemental Witch) Veronica, hanging out with her best friend, and working at the Fly by Night Cauldron selling candles and crystals to tourists, goths, and local Wiccans. But dealing with her ex is the least of Hannah's concerns when a terrifying

blood ritual interrupts the end-of-school-year bonfire. Evidence of dark magic begins to appear

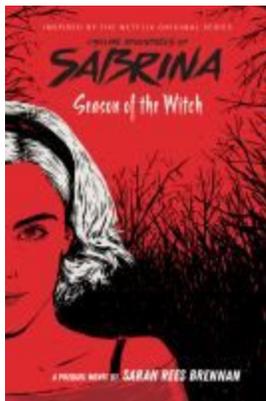

all over Salem, and Hannah's sure it's the work of a deadly Blood Witch. The issue is, her coven is less than convinced, forcing Hannah to team up with the last person she wants to see: Veronica. While the pair attempt to smoke out the Blood Witch at a house party, Hannah meets Morgan, a cute new ballerina in town. But trying to date amid a supernatural crisis is easier said than done, and Hannah will have to test the limits of her power if she's going to save her coven and get the girl, especially when the attacks on Salem's witches become deadlier by the day. Isabel Sterling's delightful, suspenseful debut is equal parts sweet romance and thrilling mystery. With everything she loves on the line, Hannah must confront this murderous villain before her coven--and any chance she has with the new girl--is destroyed.

I know what I saw: modern-day encounters with monsters of new urban legend and ancient lore

Godfrey, Linda S,

The monsters of ancient mythology, folklore, and more contemporary urban legend have long captured the popular imagination. While most people in America today relegate monsters to just that--our imaginations--we continue to be fascinated by the unknown. Linda Godfrey is one of the country's leading authorities on modern-day monsters and has interviewed countless eyewitnesses to strange phenomena. Monsters evolve, taking on both new and familiar forms over time and across cultures. In this well-researched book, Godfrey explores

uncanny encounters with werewolves, goatmen, Bigfoot, and more. In more than twenty-five years spent "chasing" monsters, Godfrey has found that it often remains unclear whether the sightings are simply mistaken animals, hoaxes, or coincidence. When all the speculation is said and done, one question remains for fans and researchers- Are the creatures "real," or are they entirely "other-world?" Godfrey suspects that it isn't an either/or question--our reality operates on a scale from dense matter to realms the human eye cannot see. As Godfrey investigates unexplained phenomena, her search for answers will fascinate casual observers and enthusiasts alike.

Stiff: the curious lives of human cadavers (adult, non-fiction)

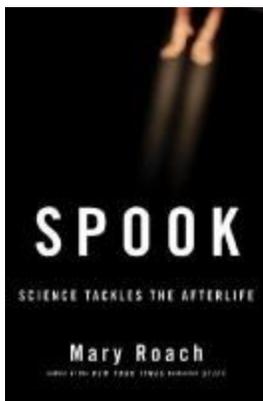

Mary Roach

An oddly compelling, often hilarious exploration of the strange lives of our bodies postmortem. For 2,000 years, cadavers--some willingly, some unwittingly--have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure--from heart transplants to

gender reassignment surgery--cadavers have been there alongside surgeons, making history in their quiet way. In this fascinating, ennobling account, Mary Roach visits the good deeds of cadavers over the centuries--from the anatomy labs and human-sourced pharmacies of medieval and nineteenth-century Europe to a human decay research facility in Tennessee, to a plastic surgery practice lab, to a Scandinavian funeral directors' conference on human composting. In her droll, inimitable voice, Roach tells the engrossing story of our bodies when we are no longer with them.

Spook: science tackles the afterlife (adult, non-fiction)

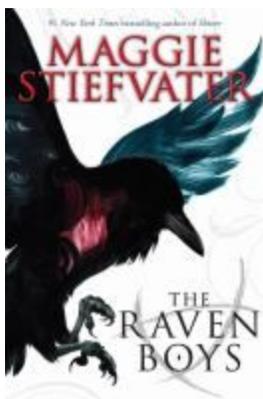

Mary Roach

What happens when we die? Does the light just go out and that's that the million-year nap? Or will some part of my personality, my me-ness persist? What will that feel like? What will I do all day? Is there a place to plug in my lap-top?" In an attempt to find out, Mary Roach brings her tireless curiosity to bear on an array of contemporary and historical soul-searchers: scientists, schemers, engineers, mediums, all trying to prove (or disprove) that life goes on after we die. She begins the journey in rural India with a reincarnation researcher and ends up in a University of Virginia operating room where cardiologists have installed equipment

near the ceiling to study out-of-body near-death experiences. Along the way, she enrolls in an English medium school, gets electromagnetically haunted at a university in Ontario, and visits a Duke University professor with a plan to weigh the consciousness of a leech. Her historical wanderings unearth soul-seeking philosophers who rummaged through cadavers and calves' heads, a North Carolina lawsuit that established legal precedence for ghosts, and the last surviving sample of "ectoplasm" in a Cambridge University archive.

Good Omens

Neil Gaiman

The classic collaboration from the internationally bestselling authors Neil Gaiman and Terry Pratchett, now a Prime original series starring Michael Sheen and David Tennant.

"Good Omens . . . is something like what would have happened if Thomas Pynchon, Tom Robbins and Don DeLillo had collaborated. Lots of literary inventiveness in the plotting and chunks of very good writing and characterization. It's a

wow. It would make one hell of a movie. Or a heavenly one. Take your pick."--Washington Post
According to The Nice and Accurate Prophecies of Agnes Nutter, Witch (the world's only completely accurate book of prophecies, written in 1655, before she exploded), the world will end on a Saturday. Next Saturday, in fact. Just before dinner.

So the armies of Good and Evil are amassing, Atlantis is rising, frogs are falling, tempers are flaring. Everything appears to be going according to Divine Plan. Except a somewhat fussy angel and a fast-living demon--both of whom have lived amongst Earth's mortals since The Beginning and have grown rather fond of the lifestyle--are not actually looking forward to the coming Rapture.

And someone seems to have misplaced the Antichrist . . .
